## Finding the Warehouse

You'll want to use the address 168 S. Lake Street, East Jordan. **BUT!** That number will not be anywhere on any sign or building. It's just the number that everyone's GPS likes best to navigate here. Weird, I know. You'll know you're in the right place because it's a giant blue and white building and it's directly across the street from the only McDonald's in town. It's also near the intersection with the only traffic light in town!

Once you find the building, go to the far *right* end of the parking lot (there's a hair salon at the far left end). There you'll see a series of large garage doors. At the very end of the building is a entrance door with the numbers 133 above it. You've found the Serradella Warehouse!
